# ROOM FOR IMAGINATION

At RAK Ceramics we help to create icons, we help to build marvels and our products feature in some of the most iconic buildings in the world.

We are known for our wide product range and our ability to produce bespoke ranges for both small and large scale projects, enabling our clients to bring their ideas to life.

We respect, we inspire, we improve, we deliver; today, tomorrow, no matter the ambition, no matter the challenge, at RAK Ceramics we take care of all the details, however large or small, so you don't have to.

Our passion and expertise combined with this careful attention to detail enables us to provide you with a wide range of integrated ceramics solutions, allowing you freedom to be creative and plenty of room for imagination.

In RAK Ceramics contribuiamo a creare icone, contribuiamo a creare meraviglie, i nostri prodotti compaiono in alcuni degli edifici più rappresentativi del mondo.

Siamo rinomati per la nostra ampia gamma di prodotti e la nostra capacità di produrre gamme personalizzate per progetti tanto di piccola quanto di ampia scala, consentendo ai nostri clienti di realizzare le proprie idee.

Noi rispettiamo, ispiriamo, miglioriamo, consegnamo; oggi, domani, non importa l'ambiziosità, non importa la sfida, in RAK Ceramics curiamo ogni dettaglio, che sia grande o piccolo, in modo che non dobbiate preoccuparvene voi.

La nostra passione ed esperienza, insieme a questa cura per il dettaglio, ci consente di fornirvi un'ampia gamma di soluzioni ceramiche integrate, consentendovi la libertà di essere creativi e concedendo ampio spazio all'immaginazione.

# THE COMPANY

RAK Ceramics is one of the largest ceramics' brands in the world. Specialising in ceramic and gres porcelain wall and floor tiles and sanitaryware, we produce 110 million square metres of tiles and 5 million pieces of sanitaryware per year at our 16 state-of-the-art plants across the United Arab Emirates, India, Bangladesh and Iran. Headquartered in the United Arab Emirates, we serve clients in more than 150 countries through our network of operational hubs in Europe, Middle East and North Africa, Asia, North and South America and Australia. Across our global operations we employ approximately 15,000 staff from more than 40 nationalities. We are a publically listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and on the Dhaka Stock Exchange in Bangladesh and as a group have an annual turnover of approximately US\$1 billion.

---

RAK Ceramics e' uno dei maggiori brand al mondo nel settore della ceramica. Ogni anno produce oltre 110 milioni di metri quadri di pavimenti e rivestimenti in ceramica e gres porcellanato e 5 milioni di sanitari, nei 16 attuali stabilimenti distribuiti tra Emirati Arabi Uniti, India, Bangladesh ed Iran. Dalla sede centrale negli Emirati Arabi Uniti, fornisce i propri clienti in 150 paesi nel mondo, attraverso sedi operative in Europa, Medio Oriente, Africa del Nord, Asia, Americhe e Australia, con un totale di circa 15.000 addetti di oltre 40 diverse nazionalita'. La societa' e' quotata presso la Abu Dhabi Securities Exchange negli Emirati Arabi Uniti e presso la Borsa di Dhaka in Bangladesh ed il Gruppo produce un fatturato annuale di circa 1 miliardo di dollari.

**RAK**  
CERAMICS

## The ultimate Rimless Technology for your bathroom

**EASY TO CLEAN,  
WITH LOW WATER  
CONSUMPTION.**  
FACILE DA PULIRE  
CON UN BASSO  
CONSUMO D'ACQUA.

## Rimless

- Silent / Silenzioso
- Water Saving / Risparmio d'acqua
- Easy Crak-Cleaning / Pulizia semplice
- Hygienic / Igienico
- No ledges or rim / Senza brida / senza cavità

**RAK Ceramics** delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

**RAK Ceramics** mette a disposizione la tecnologia Rimless più moderna per il vostro bagno. I WC senza brida di RAK Ceramics sono basati su specifiche di design simili a quelle della ceramica sanitaria degli ospedali e dei centri medicali, permettendo di godere anche nella vostra casa degli standard igienici più elevati. I sistemi di risciacquo appositamente sviluppati permettono un lavaggio senza residui. Le misure sanitarie adottate da RAK Ceramics contribuiscono a mantenere il vostro bagno sempre fresco e igienicamente perfetto.

### HYGIENIC AND EASY TO CLEAN | IGIENICO E FACILE DA PULIRE

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic. La mancanza di brida evita l'accumularsi di batteri e microbi, facilitando le pulizie per la massima igiene.

### WATER SAVING | RISPARMIO D'ACQUA

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third. 4 litri per un normale risciacquo e 2.5 litri per quello ridotto: il consumo di acqua si riduce di 1/3.

### EFFICIENT DESIGN | DESIGN EFFICIENTE

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing. Design ed efficienza non si escludono l'un l'altro: grazie al design innovativo, il getto d'acqua viene indirizzato opportunamente prima di risciacquare la parte interna del vaso, senza inutili sprechi.

### SILENT FLUSH | RISCIAQUO SILENZIOSO

Rimless technology allows a faster and more silent flush. La tecnologia permette un risciacquo più veloce e silenzioso.

# RAK-SUMMIT

Contrasting combinations of sharp linear edges with soft curves give an uber chic feel to the bathroom area. The trapezoidal frame provides a sturdy appearance and emphasises the aesthetic appeal.

**RAK-Summit** is available in close coupled or back to wall formats and alpine white colour.

La combinazione contrastante tra bordi lineari decisi e curve dolci conferisce un senso di grande eleganza all'area bagno. La struttura trapezoidale gli conferisce un aspetto solido e ne enfatizza l'attrattiva estetica.

**RAK-Summit** è disponibile nei formati monoblocco e a muro in colore bianco alpino.

## VENICE WATERLESS URINAL BOWL ORINATOIO SENZ'ACQUA VENICE

### Venice Waterless Urinal Bowl

#### Service

The Key-Valve E is a consumable. For proper operation, it must be replaced in accordance with the rate of usage. Using the Service-Key, the Key-Valve E can be quickly and easily replaced without any problem.

#### Application Area

The patented Key-Valve® E is the heart of the Key-System® and was developed specifically for use in waterless urinals. Without the use of water or other sealing liquids, it seals the drain opening to prevent the emission of odors from the drain. Depending on the rate of urinal usage, the Key-Valve must be replaced 2 to 3 times a year. Thus each Valve can save up to 20,000 – 40,000 liters of water.

#### Technology

The Key-Valve works using Bernoulli's principle. Aided by adhesion of the moistened Key-Membrane®, the Key-Valve E remains permanently airtight. There is practically no risk of drying out because of the moist air in the drain line. With the Key-Valve, no siphon is required in the drain line. If a conventional siphon is in place, it does not affect the Key-Valve E.

The Key-Valve E automatically balances negative pressures in the drain line because the Key-Membrane allows air to flow into the drain. When the line is under pressure the Key-Membrane closes tight.

The Key-Membrane is made out of a special silicone rubber compound and possesses exceptional chemical and mechanical properties. Polar liquids such as alcohol and ketone – virtually all types of crak-Leaner – do not damage the Key-Valve E.

Non-polar liquids such as mineral oil and gasoline would significantly impair the function and reduce the service life of the Key-Valve E. Larger pieces of debris are caught by the Key-Valve E cover. Smaller particles are separated horizontally by the patented design of the Key-Membrane.

For the daily crak-Leaning procedure, a pH neutral surface crak-Leaner is required. No need for harsh crak-Leaning detergents.

#### Life Span

The Key-Valve E can be stored in its Rak-Orirak-Ginal package at 15-25°C for one year (12 months). The Key-Valve has a min. flow rate of about 1.25 liters/minute, which can drop over the usage period. It is guaranteed that each installed Key-Valve will last for approx. 7,500 usages. Crak-Leaning detergents and drainpipe gases rak-Lead to aging of the Key-Membrane, as they reduce elasticity.

### Orinatoio senz'acqua Venice

#### Manutenzione

La valvola "E" è deteriorabile. Per un corretto uso, deve essere sostituita in base al numero di utilizzi. Con la chiave di servizio, la valvola "E" può essere facilmente sostituita senza problemi.

#### Tipo di applicazione

La valvola "E" brevettata Key-Valve® è il cuore del sistema Key-System® ed è stata sviluppata appositamente per l'utilizzo in orinatoi privi di scarico idrico. Senza uso di acqua o altri liquidi sigillanti, sigilla l'apertura dello scarico per evitare l'emissione di odori dallo scarico.

In base al tasso di utilizzo dell'orinatoio, la valvola deve essere sostituita da 2 a 3 volte all'anno. Ciascuna valvola consente così di risparmiare da 20,000 a 40,000 litri di acqua.

#### Tecnologia

La valvola funziona sfruttando il principio di Bernoulli. Con il contributo adesivo della membrana umida Key-Membrane®, la valvola "E" rimane a chiusura ermetica. Non c'è praticamente rischio che si secchi grazie all'umidità dell'aria nei tubi di scarico.

Con la valvola, non è necessario alcun sifone nello scarico. Se è già presente un sifone, questo non inficia il funzionamento della valvola "E".

La valvola "E" bilancia automaticamente le pressioni negative nelle tubature in quanto la membrana consente all'aria di fluire nei tubi di scarico. Quando le tubature sono sotto pressione, la membrana si stringe.

La membrana è fatta con un particolare composto di gomma siliconica e possiede proprietà chimiche e meccaniche eccezionali. I liquidi polari come alcol e chetone – praticamente tutti i tipi di detergente – non danneggiano la valvola "E".

I liquidi non polari, come olio minerale e benzina, inficiano significativamente il funzionamento della valvola "E", riducendone la vita utile. I pezzi solidi più grandi sono catturati dal coperchio della valvola "E". Le particelle più piccole sono separate orizzontalmente dal disegno brevettato della membrana.

Per le procedure di pulizia quotirak-Diana, è richiesto un detergente a pH neutro. Non è necessario usare detergenti aggressivi.

#### Vita utile

La valvola "E" può essere conservata nella confezione Rak-Orirak-Ginaria a 15-25°C per un anno (12 mesi). La valvola ha un livello di flusso minimo di circa 1,25 litri/minuto, che può prolungare il periodo di utilizzo.

La valvola montata è garantita per circa 7.500 utilizzi. I detergenti per la pulizia e i gas dei tubi di scarico invecchiano la membrana, riducendone l'elasticità.

#### Key Features:

- no water flush required
- allows liquid to flow into the drain, but prevents backflow of drain gases
- vertical mechanism
- rak-Compact unit
- easy to handle
- total life span of fey valve, approx. 7500 usage
- the green Key-Ring® is the optical life cycle indicator, it keeps the Key-Membrane flexible and crak-Lean and create in addition a prak-Leasant scent
- the green Key-Ring mass is fully biodegradable
- the Key-System prevents the forming of scale and hard deposits in the drain

#### Caratteristiche:

- non è necessario lo scarico idrico
- consente al liquido di fluire nello scarico, impedendo la risalita dei gas di scarico
- meccanismo verticale
- compatto
- facile da gestire
- vita utile totale della valvola, circa 7500 utilizzi
- - l'anello verde Key-Ring® è l'indicatore ottico della vita utile, mantiene la membrana flessibile e pulita e inoltre genera un odore gradevole
- - il corpo dell'anello verde è interamente biodegradabile
- - il sistema impedisce la formazione di depositi solidi nello scarico

RAK-Moon Sink Unit 90 With Wooden Drawer  
MBMOBS90E

RAK-Moon Top 90 Glass With Holes(Grey)

RAK-Moon Top 90 Glass With Holes(White)

**Features**

- Made of E2 MDF and coated with superior quality furniture lacquer
- Resistant to water and extreme (low/high) temperature
- Fashionable handle made of stainless steel
- Maximum weight capacity 40KG
- Smooth running and soft closing of drawer for up to 100, 000 usages
- Quiet operation of drawers
- Full pull drawers
- 1 year limited warranty against any manufacturing defect

**Maintenance**

- Wipe crak-Lean with a water dampened soft cloth and a mild non-abrasive soap if necessary
- Wipe dry with a crak-Lean cloth
- Wet marks should always be dried off as possible to stop moisture penetration
- Do not use burnishing powder, steel, hard or sharp tools which can scratch the surface

**Caratteristiche**

- prodotto in E2 MDF e laccato
- Resistente all'acqua e alle temperature estreme (alte/basse)
- Maniglia di design in acciaio inossidabile
- Portata massima: 40 Kg
- Cassetti a corsa dolce e chiusura ammortizzata fino a 100.000 utilizzi
- Cassetti a funzionamento silenzioso
- Cassetti a estrazione completa
- Garanzia di 1 anno per ogni difetto di fabbricazione

**Manutenzione**

- Pulire con un panno morbido umido e sapone neutro
- Asciugare con un panno pulito per evitare la penetrazione di umidità
- Non usare polveri abrasive, acciaio o utensili duri o affilati che possano graffiare la superficie
